

THE 30-DAY DOMINATION BLUEPRINT

Execution Calendar & 30 Content Ideas

Prepared for: Akangbe Oluwanifemi Emmanuel

BIG NIFS · Operating Entity: Imefin Ltd

How To Use This Document

This document operationalises the BIG NIFS content strategy across TikTok, Instagram Reels, YouTube Shorts, and X. It is built around three content pillars, a phased 30-day execution calendar, and 30 ready-to-shoot content ideas mapped to those pillars.

The Three Pillars

Pillar 1 — Inside OAU (50%): Hyper-local campus storytelling. Your beachhead. This is what wins the algorithm war fast because the audience is emotionally invested.

Pillar 2 — Student CEO (30%): The Imefin Ltd / BIG NIFS entrepreneur angle. A 17-year-old running a registered company while studying. Where high-CPM audiences and brand deals live.

Pillar 3 — Curate / Command (20%): Tech, AI, tools, lifestyle, photography. The halo pillar that prevents you from being trapped as 'just a campus creator' and unlocks global reach.

The Daily Rhythm

Plan content one week ahead. Batch-shoot every Sunday and Wednesday. Edit the night before posting. Post TikTok first (it gets the strongest new-creator boost), then cross-post to Reels and Shorts within 30 minutes. X gets native text + clip posts 2–3 times daily.

Phase Overview

Phase	Days	Mission	Posting Cadence
Phase 1 Setup & Identity Lock	1–3	Lock handles, install tools, brand profiles, set funnel links. — preparation only	0 posts
Phase 2 Saturation Sprint	4–10	Establish algorithmic identity. Test every hook + format combo	2 TikToks/day · 1 Reel/day · 1 Short/day · 2–3 X posts/day
Phase 3 Double Down on Winners	11–20	Identify top 2 videos. Make 3 more in that exact style per platform	1 Reel/day · 1 Short/day · 1 tentpole video per week
Phase 4 Stack the Brand	21–30	Push Pillar 2 hard. First X thread. First paid sponsored post	1 Reel/day · 1 Short/day · 1 tentpole video per week · Pillar 2 share rises to 30%
