Emmanuel · Full-Stack Developer · Digital Brand Strategist · Tech Entrepreneur

nuele4409@gmail.com | +234 706 552 9123 | linkedin.com/in/akangbe-oluwanifemi-9a48aa348 | Ile-Ife, Nigeria

PROFESSIONAL SUMMARY

Results-driven technologist and entrepreneur with hands-on experience building full-stack web applications, managing high-growth digital media channels, and leading structured academic programmes. Currently pursuing dual degrees in Information Systems (OAU) and Computer Science (University of the People), while simultaneously running a digital media brand with over 13,000 active subscribers and directing a 5-month admissions training academy. Combines strong technical proficiency with proven leadership, content strategy, and business development capabilities.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, React, Python, PHP, HTML/CSS

Core Competencies: Full-Stack Web Development, Backend Infrastructure, Database Management, System Architecture

Digital & Creative: Social Media Strategy, Digital Brand Management, Professional Photography, Videography & Vlogging

Leadership & Management: Project Management, Team Coordination, Curriculum Development, Client Relations

PROFESSIONAL EXPERIENCE

Founder & Digital Brand Manager

Inside OAU! — Digital Media & Brand Agency

Present

- Founded and scaled a premier campus-focused digital media channel to over 13,000 active subscribers, establishing a centralised platform connecting students across Nigeria.
- Conceptualised and executed high-engagement digital campaigns, including the 'Face of Val '26' digital personality contest, driving significant audience growth and brand visibility.
- Negotiated and managed brand ambassadorships, cross-promotional partnerships, and ad-sharing networks with campus influencers and local vendors.
- Delivered end-to-end social media management services for external clients, consistently improving brand reach, engagement metrics, and digital presence.

Project Manager & Educational Lead

Post-UTME Tutorial Academy

May 2026 – Present

- Designed and directed a comprehensive 5-month admissions-focused training programme, overseeing curriculum development, scheduling, and student success outcomes.
- Recruited, onboarded, and coordinated a professional team of seven subject-matter tutors, maintaining high instructional standards across all disciplines.
- Developed structured academic curricula and operational timetables, optimising workflow efficiency and measurably improving student preparedness for university admissions.

NOTABLE PROJECTS

Dual-Portal CBT Web Application · Full-Stack Development

Independently architected, developed, and deployed a full-stack Computer-Based Test (CBT) platform using React (frontend) and Python (backend), with PHP handling server-side logic and JavaScript powering dynamic interactions. The dual-portal architecture features one portal for student exam practice and a separate administrative portal for automated test management, replicating real examination conditions to improve student readiness and assessment accuracy.

EDUCATION

B.Sc. Information Systems *In Progress*
Obafemi Awolowo University (OAU) · 200 Level, Second Semester

B.Sc. Computer Science *In Progress*
University of the People · Currently Enrolled

LEADERSHIP & ADDITIONAL ACTIVITIES

- Departmental Class Representative, OAU — Elected student leader responsible for coordinating academic activities, managing faculty-student communications, and advocating for peer interests.
-
- Tech & Lifestyle Content Creator — Produces high-quality vlogs and professional photography documenting life as a tech entrepreneur and student leader, utilising modern cinematic techniques to build a cohesive personal brand.
